

Enviromax 10HP

Higher Performance

The Enviromax 10HP was specifically designed as a modular heat pump. This one unit offers a solution for all seasons whether it is cooling, heating or dehumidification. Ideally suited for the rental industry and end user applications. The latest model includes an electronically controlled evaporator motor (ECM) offering soft start, low and high fan speeds.

Key Features

- 10kW Cooling
- 10kW Heating
- Reliability
- Free blowing, maximum 10m
- Ducted application*, maximum 20m
- High/low speed evaporator fan motor
- Pumped condensate removal
- Fast deployment
- Easy handling, fork truck pockets, lockable castors and standard doorway access
- User friendly integral thermostat control or optional 24V remote thermostat control
- 240V Single phase 50Hz, 16 Amp power inlet
- Ambient range 10°C to 48°C
- R410A refrigerant
- CE certified

 Air-Conditioning

 Heating

 Dehumidification

COOLING CAPACITY: 10KW

HEATING CAPACITY: 10KW

DEHUMIDIFICATION: 180 LTRS/24HRS
at 20°C DB and 75%RH air on condition

Enviromax 10HP

Higher Performance

SPECIFICATION

Height:	1465mm
Length:	1030mm
Width:	750mm
Weight:	208Kgs
Handling:	Fork pockets and heavy duty swivel castors
Sound Level:	61dba @ 5 metres
Supply Air Flow:	2,249 Cubic m/hour @25PA
Supply Air:	Free blow or optional plenum with 2 x 300mm diameter duct apertures, maximum duct length 20m
Return Air:	Standard filter grille or optional plenum with 1 x 600mm diameter duct aperture, maximum duct length 5m
Condenser Air:	Standard grille back panel or optional plenum with 2 x 300mm diameter duct apertures maximum duct length 5m

Note* Ducted applications will require the use of a plenum(s) for final connection to the Enviromax unit, see accessories listing for plenum and flexible ducting options.

MARKETS SERVED

The Enviromax units are fast becoming a market leading brand due to their unique design and operational parameters.

Our units are widely used across the world for rental, events, hospitality, disaster recovery, military, secondary cooling/heating and dehumidification.

SPECIALIST APPLICATIONS

In addition to our standard range we are able to offer bespoke solutions for offshore applications where the units are open to the elements and require full coastal protection.

Alternative voltage options available.
